RE: COVID-19 Test Results Update - Three Links Care Center

Dear Family and Friends of Three Links,

Our priority throughout this pandemic is to keep everyone who lives and works at Three Links Care Center safe, healthy and informed. Ongoing weekly testing for COVID-19 testing for all Care Center residents and staff provides us with valuable information for the prevention of the spread of COVID-19.

**Care Center COVID-19 Testing Update for Week of January 10:**

**Residents**

- Zero residents tested positive for COVID-19.

**Employees**

- Zero employees tested positive for COVID-19.

**COVID-19 Protocols**

- We are working closely with the Minnesota Department of Health (MDH) to ensure we are taking all appropriate steps and infection prevention protocols.
- Residents and staff will be tested for COVID-19 next week.
- Extra sanitation and cleaning of surfaces is being done on an ongoing basis.
- Indoor visits are suspended and will resume when meeting the MDH guidelines for indoor visits. If you are interested in a window or virtual visit, please call us to arrange. Compassionate exception visits for end-of-life or urgent needs will continue.
- A COVID-19 vaccination clinic for residents and staff took place on Monday, January 4. A second vaccination clinic is scheduled for Monday, February 1.

Thank you for your patience in being separated from your loved ones at this difficult time. We will continue to be transparent regarding any updates or changes. Please see [threelinks.org](http://threelinks.org) for the latest family communications regarding COVID-19 or contact Social Services at the Care Center with any individual requests you may have. The main number at Three Links Care Center is 507-664-8800.

Sincerely,

Mark Anderson, Chief Executive Officer
